To: Members of Barton Water Supply Corporation

RE: Rate Increase

This letter is to inform you that there will be a rate increase on gallonage charges effective January 1, 2023. This is a pass-through cost due to rate increases by the City of Gordon, as an amendment to Ordinance No. 20-12 was passed at their November council meeting.

The new rate will reflect a \$1.50/thousand increase, and will be reflected on January usage for the bill that will be due on February 15th.

Examples of new rates:

0-10,000 gallons = \$11.25/thousand gallons

10,001-20,000 gallons = \$12.25/thousand gallons

20,001-30,000 gallons = \$13.25/thousand gallons

Etc...

The annual evaluation of Barton WSC rates will occur after we receive the 2022 financial audit and complete our rate survey study.

As a reminder, Barton WSC is a 501c(12) non-profit organization and is governed by a board of volunteers who are members of the corporation. Board meetings are held the second Thursday of the month, members are always welcome, and agendas are posted on our website, bartonwatersupply.com, and at our office.

Please feel free to contact us if you have any questions or concerns.

Thank you,

Board of Directors
Barton Water Supply Corporation
